I have 10 years of experience in the audiovisual and multimedia industry working in all aspects of film including producing, editing and videography. I am excellent at managing projects, budgets and people. I am looking to continue working in a creative field with content I am passionate about. My skills are best suited to a fast paced environment with ambitious and technically challenging projects.

Multimedia Producer | NTT Ltd (London, UK)

May 2020 - October 2020

In charge of webcast production including meetings, coordination and live production.

Multimedia Content Specialist | City & Guilds (London, UK)

March 2019 - April 2020

As part of a new role for a new team, I implement and create all the design assets for a in house service for the Marketing department. Produced and directed videos that support the brand positioning of the business for both internal and external audience. I'm also acting as a brand guardian for the marketing team and coordinate, supervise jobs with external freelancers when I'm over capacity.

Video Production Specialist | BNP Paribas (London, UK)

August 2017 - December 2018

Designed and implemented the rebrand for Global Markets' visual identity for all video worldwide. Project managed the construction of a new in-house broadcast studio and implemented the production flow across multiple communications teams. Produced and directed videos that support the brand positioning of the business both internally and externally.

Webcast Producer - Videographer | Nestlé HQ (Vevey, Switzerland)

2015 - 2016

In charge of webcast production including meetings, coordination and live production. Filming, editing and graphic design for all the Nestlé divisions. Creating content for internal distribution including motion graphics and video.

Multimedia Manager | Graduate Institute IHEID (Geneva, Switzerland)

2014 - 2015

Management of audiovisual and multimedia equipment for the University. Organizing conferences, videoconferences, webinars and live webcasts. Production editing and graphic design for the Institute's videos.

Multimedia Specialist | Lemansio (Gland, Switzerland)

2012 - 2013

Support and technical assistance to clients for the full range of visual and audio products. Working with live cast and ensuring smooth operations. Understanding all aspects of the products provided, microphones, cables, video and projection and being able to improvise on the spot depending on the clients needs.

Multimedia Manager | Procter & Gamble (Geneva, Switzerland)

2012

In charge of audio-visual support and video conferencing system, working with clients to make sure they can use all equipment with ease.

Co-Founder video production company | NMNP (Geneva, Switzerland)

2012 - 2013

Co founded a production company that carried out video production and editing services for the NGO HAP and for L'Oréal's marketing department. We were in charge of quoting for the project and working within the budget. Organising the shoot days, equipment and managing the editing process to ensure that the content was delivered to the clients on time.

Designer - Project coordinator | University of Art & Design HEAD (Geneva, Switzerland)

2012

For my masters project I created a design interface where by people could easily clip and assemble pieces of video to create their own short film. The project was aimed as an educational interactive tool that could be used by everyone no matter their skill level.
